BY DRU
TRUE FLAMES FOR ALL
Gas fires with a perfect log flame effect,
suitable for all house types

Global by DRU Truflame burner® gas fires with impressive flames and numerous installation possibilities

The Global by DRU Truflame burner® range is a selection of attractive and affordable gas fires with multiple installation opportunities. All the fires feature the exclusive DRU Truflame burner®, which guarantees high, realistic flames with glowing hot embers, just like a real fire.

INSTALLATION OPTIONS

- **CF** — Standard chimney installation
- **BF** — False chimneybreast or standard chimney installation (with chimney renovation kit)
- **BF** — Cavity wall installation

WIDE RANGE WITH OTHER MODELS

In addition to the Truflame burner® range, Global by DRU comprises a further 9 balanced flue models with front, 2-sided and 3-sided variations. All Global by DRU gas fires meet the strictest quality requirements, complying with the latest international emissions and efficiency regulations.

ALL MODELS HAVE THE FOLLOWING FEATURES

- Electronic remote control
- Choice of interior finishes
- Standard or Clear View (anti-reflective) glass
- Compatible with classic or contemporary fire surrounds
- Beautifully hand crafted, realistic logs

GLOBAL 70XT BF AND CF

Elegant and spacious.

Scan this QR code for video of flames.

Global 70XT BF or CF with surround and Classic Stone interior

Option with black interior

CLEAR VIEW GLASS

Replicates the appearance of a real, open fire.

Clear View (anti-reflective) glass

INTERIOR FINISH

Customise your fire to match the interior of your home.

- Black: sleek design and ideal in combination with Clear View glass
- Ceraglass: The mirror effect creates extra depth in your fire
- Classic stone: a classic or country look, like the old brick fireplaces

FLUE TYPES

Conventional Flue (CF)

Fits a standard Class 1 chimney with no ventilation points required in the room

Balanced Flue (BF)

Can be installed in a false chimneybreast adjacent to an outside wall, or into a Class 1 chimney using a chimney renovation kit

GLOBAL 55XT CAVITY BF

Compact and versatile cavity wall gas fire.

Scan this QR code for video of flames.

Global 55XT Cavity BF with slimline fire surround and hearth

CHARACTERISTICS

- Snorkel-shaped balanced flue (BF) with compact wall terminal
- For installation inside wall cavity
- Suitable for most properties built since the 1960s
- Fire fits flush to wall and takes up less space in the room
- Compatible with a selection of slimline fire surrounds
- Realistic Truflame® fire effect with remote control
- High energy efficiency

FLUE TYPE

Balanced Flue (Cavity BF)

Fits neatly inside a cavity wall and completed with a slimline fire surround
