PREMIUM ELECTRIC FIRES COLLECTION 2019

CELSI
...the future of fire

WELCOME TO CELSI

At Celsi we know how important it is to create a stylish and relaxing living environment. That's why we've developed this collection of premium electric fires.

I believe our success stems from a combination of innovative design, investment in technology and the highest quality manufacturing standards. As a result all Celsi heaters carry a 2 year guarantee* to reflect my belief in their quality and durability.

This brochure has been designed to make the purchase of your new Celsi heater as simple as possible. I hope you find it both informative and inspiring.

THERE IS NO MORE VERSATILE FUEL FOR HOME HEATING THAN ELECTRICITY

With a range that includes beautifully crafted fireplace suites, highly chic wall mounted 'hang-on-the-wall' and wall inset fires, as well as classically designed hearth mounted and inset fires and contemporary stoves, there is a Celsi design to suit any home.

Best of all you are free to enjoy any of these fantastic heating appliances in any room in your home simply by plugging into the nearest mains socket.

To learn more about the features and benefits of owning a Celsi electric fire please sit back and take a few moments to look through our Key Features section, along with our technology introduction to Advanced Celsi Electric Fires.

2 YEAR guarantee

We are confident you are getting a product that is built to last. That's why we offer a 2 Year Guarantee* on all Celsi electric fires.

**Only applicable to electric fire engines. Fire Surrounds and Fascias are subject to 12 months guarantee.*

ADVANCED FEATURES

Thermostatic Heating
Pre-set your heat comfort level for automatic temperature control via the handset.

Timer Function
Programmable 7-day heating timer function with hourly on/off control. Upto 8 hrs sleep timer facility available on some models.

LED Efficiency
From controllable flame picture and fuel bed brightness, to colour changing mood lighting, our onboard LED's ensure effective energy saving low power consumption.

IsoFlame
Independent flame effect capable of displaying in isolation when no heat is required from the appliance.

Flame Fusion
Captivating Indigo blue flame feature creates a colourful impression by fusing soft and natural yellow flames with an attractive flare of blue flame intensity.

Colour Cycle
Fix your favourite or go dynamic as you cycle through an array of impressive colour changing fuel bed options.

Mood Lights
Designed to enhance your experience with an ambient stream of colour rich soft LED lighting. Select from a choice of colours to compliment both warm and cool home interiors, or simply to suit your mood.

Ecodesign Compliant
Integrated design features for optimal energy saving performance and assurance.

Advanced Celsi electric fire technologies

The Celsi range includes the latest in electric fire technology as well as options to suit all homes and requirements – with glass fronted or open fronted wall and hearth models as well as suites and stoves.

To guide you to make the best choice for your home you can reference these icons as your browse the pages:

SUITE WALL HEARTH STOVE

ELECTRIFLAME® VR

Virtual Reality – The Real Alternative.

Electriflame Virtual Reality fires capture the essence of what is perceived to be real when it comes to fire. E-VR is an extraordinarily advanced glass fronted fire effect that provides an eye catching display of colourful lively flames, and naturally detailed logs.

ULTIFLAME® VR

Virtual Reality – Open Fire Experience.

Ultiflame VR fires use innovative technology to create a Virtual flame – real open fire experience through 3-Dimensional visual depth, and realistic flame movements.

PURAFLAME® & PURASTOVE®

Ultra High Technology Experience.

The most convincing real fire effect and one of the quietest electric fires available. Using LCD technology Puraflame® is the only electric fire to give you a choice of three flame pictures plus the astonishing look and sound of a real fire, combined with exceptional functionality.

ELECTRIFLAME® XD & ELECTRISTOVE® XD

Extra Dimensional – High Definition Fire.

Improved technology presents a third dimension to the Electriflame XD. This high definition effect, positioned behind glass, captivates and relaxes you with natural fuel bed realism, and colourful atmospheric flame ascension.

FLAMONIK, TOUCHFLAME & ACCENT

Inspired Electric Flame Effect Technologies.

Through illusion and LED light technology beautiful flames emerge to provide a range of distinctive electric fire effects that will bewilder and excite.

CELSI

...the future of fire

ELECTRIFLAME® VR

Virtual Reality The Real Alternative.

Ecodesign Compliant

2 YEAR guarantee

Electriflame Virtual Reality fires capture the essence of what is perceived to be real when it comes to fire. E-VR is an extraordinarily advanced effect that provides an eye catching display of beautifully colourful and lively flames. This remarkable technology delivers further sophistication that is virtually indistinguishable to that of a real flame emanating from beneath the fuel bed, and throughout the authentic natural aesthetics of the logs. The visual depth of E-VR is impressive, designed with blazing logs at the forefront, and subtle reflection throughout the centre and rear of the effect. This optical illusion of fire depth perception will fascinate and mystify, as it defies your sense of reality.

The Celsi E-VR range offers a variety of tastefully styled glass fronted wall inset and 'hang-on-the-wall' mounted fires, along with hearth inset and premier quality MDF free standing Electric Suites, for simply 'placing down and plugging in'.

ULTIFLAME® VR

Virtual Reality The Real Alternative.

Ecodesign Compliant

2 YEAR guarantee

Ultiflame VR fires use innovative technology to create a Virtual flame – Real open fire experience through 3-Dimensional visual depth, and realistic flame movements. The deep fuel bed has supremely detailed ceramics that capture the authentic shape and texture of natural logs, placed over a perception of hot crystal embers.

In this range you will discover a variety of tasteful wall inset and hearth inset fires, along with stunning feature fireplaces in Portuguese Limestone, that are suitable for installation into a standard cavity wall. For simple 'place down and plug in' fireplaces, see our range of premier quality MDF free-standing Electric Suites.

At the touch of a button, Ultiflame VR Electric Fires will stimulate your senses with a captivating visual flame display, whilst enjoying and relaxing in the comfortable warmth of a Virtual-Reality open fire experience.

PURAFLAME® & PURASTOVE®

Ultra High Technology Experience.

2 YEAR guarantee

Combining style with innovation, the Puraflame electric fires and stoves provide easy to oppertate feature rich technology giving you the most convincing real fire experience.

A Puraflame electric heater is extremely versatile and creates a breath taking feature virtually anywhere in your home, from your lounge to your bedroom Using LCD technology Puraflame is the only electric fire to give you a choice of three flame pictures plus the astonishing look and sound of a real fire, combined with exceptional functionality. At the touch of a button you can control your room temperature, flame picture, flame speed, volume and brightness.

In addition to stunning 'hang-on-the-wall' models this range also includes the Purastove LCD free-standing electric stove with steel body, a contemporary glass fascia and state-of-the-art technology to create a highly realistic fire effect.

Purastove effect

* Mood lighting LED's on wall mounted products

CELSI PURAFLAME® & PURASTOVE® THE MOST FUNCTIONAL ELECTRIC FIRES & STOVES ON THE MARKET

MULTI FLAME PICTURES

Celsi has patented some of the most advanced technologies to create the most sophisticated and realistic fire effect in the world. Every Puraflame fire has been designed to give the appearance of outstanding depth along with an amazing 3D effect, and comes with a selection of real fire effects to choose from.

SMOULDERING LOG

BLAZING LOG

FLAMING COAL

Flame pictures are extremely quiet running when operated in isolation and no heat is required from the appliance.

FLAME SPEED

You may prefer a slow and calming flame or a quick and spellbinding flicker. With a choice of 5 flame speeds you can speed up or slow down each of the real fire movies.

FIRE VOLUME

There's nothing more soothing than the authentic crackle of a real log fire. Lower the volume for a more subtle result or crank it up for full effect. There is also a mute button to silence the sound effect when you need to. **When on 'flame only' setting, Puraflame is the quietest fire on the market.**

MOOD LIGHTS

The mood lighting feature creates a calming ambience around the heater. A choice of 3 LED colours: white, amber and blue, lets you highlight the fire to suit your mood. This is only available on the Curved and Panoramic models and can be turned off if not required.

WHITE

BLUE

AMBER

OFF

CELSI
...the future of fire

BRIGHTNESS

Natural daylight or artificial lamplight can have a big impact on how you see the flame picture. We have included this brightness function to allow you the option to increase or dim the LCD screen brightness to suit you and your environment.

SLEEP TIMER

An extremely practical function. The sleep timer can be used to automatically turn the heater to standby mode after a predetermined amount of time. Great if you want to doze off and not worry about turning the fire off once you have fallen asleep. The timer can be set for up to a maximum of 4 hours in 30 minute intervals and once this time has elapsed the appliance will automatically go into standby.

THERMOSTATIC HEATING

The fan heater can be operated in manual or automatic mode. When in manual mode you can use the heat button on the remote handset to select low heat, high heat or heat off.

To eliminate the hassle of constantly manually adjusting the heat output, every Puraflame fire features a state-of-the-art, digitally controlled thermostat. Use the temperature function to turn on automatic heat mode. You can pre-select your comfort level and the heater will automatically adjust between high heat and off, maintaining the room temperature you have selected.

ELECTRIFLAME® XD & ELECTRISTOVE® XD

Extra Dimensional – High Definition Fire.

Ecodesign Compliant

2 YEAR guarantee

The Celsi Electriflame XD Range uses improved technology to create a stunning extra deep fuel bed and high definition flame picture. Sit back and relax as the vibrant 3D flame effect, smouldering fuel bed and soothing heat output creates an atmospheric and highly realistic experience.

Electriflame XD comes with two heat levels, variable flame dimmer, and relaxing natural flame movements. All functionality operated via the remote control handset or using the manual controls on the appliance.

In addition to impressive 'hang-on-the-wall' and hearth inset designs, this 3D technology also expands into our free-standing Electristove XD range with steel bodies, contemporary glass door, or metal door finish. Both models creating a highly realistic stove fire effect.

FLAMONIK, TOUCHFLAME & ACCENT

Ecodesign Compliant

2 YEAR guarantee

Inspired electric flame effect technologies.

FLAMONIK

Celsi Flamonik technology provides a distinctive and mesmerising flame picture that is complimented further when combined with the optional mood lighting function, creating a soft colourful atmospheric glow around the product. The two models available are both 'hang-on-the wall' and feature a realistic natural log fuel effect.

THERMO-STATIC | 7 DAY TIMER | ENERGY SAVING | ISO FLAME | COLOUR CYCLE | MOOD LIGHTING

WALL

TOUCHFLAME

The Celsi Touchflame electric fire features a fully functional touchscreen control panel built-in to the product fascia. Additional functionalities include a dynamic colour cycling flame picture and fuel bed, with the option to select and fix your favourite colour. Also an 8hr sleep timer function allowing you to pre-set how long the heat remains on, at hourly intervals up to 8 hours.

8HR SLEEP TIMER | ENERGY SAVING | ISO FLAME | COLOUR CYCLE

WALL

ACCENT

Celsi Accent electric fire technology makes good use of energy saving LED lights to illuminate a reflective ribbon flame effect resulting in eye catching bright flame motion. This is further complimented by a warm up-light glowing through the randomly laid fuel bed coals.

THERMO-STATIC | 8HR SLEEP TIMER | ENERGY SAVING | ISO FLAME

DISCLAIMER

Our policy is one of constant development and improvement. We therefore reserve the right to revise designs and specifications of our products without formal notice, patents pending. We always recommend our products be viewed in an approved showroom before purchase. Whilst we have taken every care in the preparation of this brochure it is not intended to replace the installation manual which provides more detailed information.

Photography is for illustration purposes only and although every effort has been made to ensure accurate reproduction of typical installations and flame pictures they may vary according to fire model and flue types.

We accept no liability for any loss or damage arising directly or indirectly from the use of this brochure.

We recommend that all our fires are used in conjunction with central heating and not as a primary source of heat.

In the interests of personal safety a suitable fireguard is recommended when children, the elderly and the infirm are present. (This brochure is copyright 2019 and must not be reproduced in whole or in any part without prior written permission).

We would like to thank OER Fireplaces (01782 319350) for supplying the fire surrounds used in this brochure.
