AVITA ELECTRIC FIRES

Onyx

The Next Generation of Electric Fires

Introducing the Onyx Avita: where cutting-edge innovation meets timeless elegance. The Avita is not merely an electric fire – it's a statement of refined living. Crafted to encapsulate the life and soul of a real log fire, its immersive flame visuals and ambient lighting bring evocative realism, with or without the heat.

MULTI AWARD WINNER

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class, award-winning products. **Find out more at onyxfires.com/awards**

Designed for Living, Built for Efficiency

Along with stunning visuals, the Avita is a zero-emission electric fire designed to fit seamlessly into the modern home. Intelligent energy-saving features like a 7-day programmable timer, open-window detection, and thermostatic control, make it ideal for precise zonal heating – delivering efficient warmth on demand, while minimising energy wastage.

Comfort Through the Seasons

With intelligent climate control and versatile functionality, the Avita's captivating visuals can be enjoyed with or without the heat - no matter the season.

Fan-only Mode

In addition to the heating function, and the ability to turn the heat off entirely, the Avita also features a fan-only mode which provides gentle air circulation on warmer days.

Efficient Thermostatic Heating

Featuring a powerful 2kW heater and thermostatic control up to 28°C, simply set your preferred room temperature and let the Avita automatically maintain it – delivering instant, efficient warmth when you need it most.

Zero-Emission Heating

The ultimate sustainable heating solution, Avita Electric Fires deliver zero direct emissions, providing clean, efficient, and environmentally responsible warmth. When powered by renewable energy such as solar or wind, they offer an even greener way to enjoy comfort and ambience.

eco DESIGN COMPLIANT

ZERO EMISSION

Elevate the Experience

With next-generation technology at its core, the Avita represents a new age of ultra-realistic luxury electric fire design. An array of advanced features ensures this premium electric fire range creates a sensory fireside experience – capturing the essence of a glowing hearth, beautifully refined for the modern lifestyle.

Luxury Logscape Featuring Real Oak

Creating a symphony of real and faux logs, the Luxury Logscape pairs genuine natural oak with IlluminOak technology for an exceptional glowing hearth experience. Blending the texture of authentic charred wood, natural scorch markings, and bark chippings with Avita's advanced lighting effects, the Luxury Logscape fuel bed delivers a dramatic panorama that is virtually as alive as a real burning fire.

Spectacular IlluminOak Log-effects

At the heart of the Avita are IlluminOak log-effects: highly realistic, hand-painted split oak logs with charred detailing. These are illuminated from within by hidden internal lighting that gently pulses to mimic the soul of a living, burning fireside.

ILLUMINOAK

Ember Bed Uplighting & Downlighting

Advanced Chromalight® Plus technology brings the Avita's crystalline ember bed to life with immersive LED illumination. Lit from below, the ember bed media and log-effects create a vivid, lifelike glow, while discreet top LEDs cast gentle downlighting in two colour tones for added depth and realism.

chromalight plus

Enhanced Flame Experience

Choose from five flame effect options with five adjustable brightness levels to refine the vibrance, or select one of eight convenient flame presets for instant ambience at the touch of a button.

BEYOND Real LOGS

Watch the Avita Video
onyxfires.com/reallogs

Premium Non-Reflective Glass

The Avita comes equipped with premium non-reflective glass, minimising reflections for a spectacular view of the captivating flame display.

NON-REFLECTIVE GLASS

Crackling Fireside Sound-effects

The Avita's optional crackling fireside sound-effect setting brings the ambience to life, with seamless control via remote or app. Three volume settings allow you to adjust the sensory experience to your preference.

Optional Mood Lighting

To add a touch of opulence, the Avita can be paired with an optional Mood Lighting System. These versatile LEDs can be discreetly installed around a TV or along shelves to enhance your fire's glow, creating an impressive feature for any media wall. See page 23 for details

Easy-Installation

Whether opting for a sleek recessed media wall or an effortless flat-wall fix, the Avita offers flexible styling solutions for hassle-free installation. All three sizes slide into a pre-prepared opening with the Edge XL frame neatly concealing the opening, while the 120RW and 160RW models can be styled with premium Turin Suites for the ultimate ease of fitting. See pages 12-15 for more information.

** Dimensions given are those overall visible upon installation. For detailed technical information, including overall fire dimensions, see page 20.*

Luxury Made Easy

The Turin Suite is the perfect companion for Onyx Avita 120RW and 160RW electric fires, delivering a stylish, high-end focal point with simple wall-mounted installation.

It offers a flat-wall fix that instantly transforms a room, minimising installation time with wall-mounting brackets included for easy fitting, and making it even easier to create a media wall in your home.

The Turin comes complete with an optional plinth for the impression of a floor-mounted installation. When using the plinth, the innovative design allows for varied height adjustment of the main suite, allowing you to install above most skirting boards without the need for cutting or removal. Alternatively, leave out the plinth entirely if you prefer a floating look.

For added ambience, pair your suite with the optional Avita moodlighting kit to create elegant floor-level illumination.

Framed to Perfection

Seamless Single-Sided Installation

When configuring your Avita as a single-sided fire, there are two stunning frame options – Edge+ and Edge XL.

Edge+

The Edge+ finishing frame comes supplied as standard and provides a clean, modern border that neatly conceals any minor plastering imperfections around the opening.

Edge XL Frame

More than just a bolder design statement, the Edge XL is engineered for function too offering the ultimate ease and time saving installation. Designed to allow the fire to simply slot into a pre-prepared and finished chamber opening, its wider profile covers the parts of the fire housing which would otherwise need boarding over in a more conventional installation where you would install the fire first.

Available in all three Avita sizes, both frames offer the perfect solution for a streamlined, stylish media wall.

Complete Control

Controlling the Avita is effortless. Whether you use the fire's touch panel, remote control, or our intuitive app, compatible with both iOS and Android devices, adjusting the atmosphere is simple. A discreet display on the fire itself that illuminates on touch keeps all your settings in sight, and eight presets offer instant ambience. Take full control over heat output or simply set your desired temperature and let the Avita do the rest.

Year-round enjoyment

Set your ideal room temperature – up to 28°C – and the Avita's 2kW heater automatically adjusts to maintain it efficiently.

Easily create up to four daily heating schedules to suit your lifestyle, with room to save up to three weekly programs. With Adaptive Start Control, your Avita automatically determines the correct time to turn on in advance of a pre-set time to reach your desired room temperature, ready for when you sit down and relax.

Experience the Exceptional

When you choose Onyx, you are choosing more than just a fire or stove. You are choosing the pinnacle of British innovation and quality. You are choosing prestige.

As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class flame effect fires. Every fire and stove is born in our state-of-the-art research and development laboratories, and incorporates industry leading technology and design.

Offering a renowned and varied product range, the Stovax Heating Group's portfolio includes everything from the traditional to the ultra-contemporary in a wide array of styles and sizes. Full details of the Stovax Group's range of products can be found at: **stovax.com.**

The Stovax Heating Group is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations, with all fires in this brochure bearing the CE and UKCA mark. Similarly, our environmental management systems ensure we work in a sustainable manner, whilst endeavouring to protect the environment by minimising any possible impact from our operations.

We are proud to be part of the award-winning Stovax Heating Group, recognised for our high-quality products and innovative technology. Find out more at **onyxfires.com/awards.**

Expert Retailer Network

We take great care to ensure that our fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as determined to make sure they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our Avita range is exclusively available from our experienced, independent retailers' showrooms. They will be happy to show you a selection of models in your local showroom and answer any questions you might have. These independent retailers will discuss your individual requirements covering both technical issues and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online. We would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Onyx fires purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at: **onyxfires.com.**

The Onyx Promise

Your Onyx retailer will provide you with a Five-Year warranty, extending your standard warranty from two to five years when you register with Onyx. This warranty includes a consumables guarantee for the first year - see online for further details at **onyxfires.com/warranty**

5 YEAR EXTENDED WARRANTY

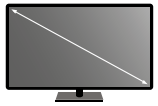
TV Size Guide

Choosing the size of your Avita electric fire and your TV will come down to both the space you have available and your personal preference. Actual TV sizes vary across manufacturers, and the way your TV is fitted (for example into a cavity recess) will also impact the way it looks in relation to your Avita fire. Your retailer will often be able to help you size up your Avita and TV to achieve the perfect look.

Suggested Avita and TV size combinations

Product	TV Size*
Avita 120RW	43” - 60”
Avita 160RW	50” - 80”
Avita 190RW	65” - 90”



*TV sizes refer to the standard diagonal screen dimension that TV manufacturers state when describing the size of their products. If sizing your existing flat screen TV, measure diagonally from the top left of the screen to the bottom right to find the TV’s advertised size. We also recommend measuring the width and height of your TV if lining it up with the Avita below.

Optional Mood Lighting System

Onyx Avita fires can be paired with an optional Mood Lighting System. Up to six metres of flexible LED strips can be discreetly installed around a TV or along shelves to enhance your fire’s glow, a fantastic addition for any media wall. The strips can be split to run in opposite directions, giving you complete flexibility in how you position them, and for seamless control, the optional Mood Lighting System is fully controllable with the remote and app.

Onyx Avita 120RW with IlluminOak log-effect only.

Convenient Control

Both the intuitive app and Eco Remote Control give you effortless command over the Avita's Chromalight® Plus visuals and adjustable heat settings, allowing you to tailor the ambience to suit every moment.

Flame and Embers

The Avita's choice of five flame options, nine ember bed uplighting settings, and five adjustable brightness levels, can be tailored to your liking for a bespoke visual.

Downlighting

Discreet downlighting LEDs, subtly integrated into the top of the Avita's firebox, illuminate the fuel bed in a choice of two hues, enhancing depth and ambience with refined precision.

Internal Log Lighting

State-of-the-art internal lighting features three colour choices that illuminate highly realistic oak log-effects or cast a dramatic glowing warmth across authentic natural oak, perfectly accentuating the fuel bed.

Timers and Scheduling

Schedule daily and weekly programmes for both flames and heat, delivering warmth or ambience when you want it. With Adaptive Start, the Avita can turn on up to 45 minutes in advance of a pre-set time to reach the set temperature, ready for when you sit down and relax.

Optional Mood Lighting

The Avita's optional Mood Lighting system lets you set the tone with a curated palette of 13 colours or the steadily changing spectrum mode - all effortlessly controlled via the app or remote to complement your space and mood.

Thermostatic Heating

With a powerful 2kW heater, the Avita thermostatically maintains your chosen temperature up to 28°C with effortless efficiency.

Open Window Detection

If the room temperature drops by 4°C within eight minutes, such as when a window is opened, the Avita's heater switches off to conserve energy. Resume heat easily via the remote or app.

Ecodesign Compliant

The Avita's innovative energy-saving features make it compliant with stringent Ecodesign energy product standards.

Crackling Sound-Effects

Complete the sensory experience with optional crackling sound-effects, with three levels of volume adjustment via the remote or app.

Fan-only Mode

Enjoy the Avita's visuals with heat, without heat, or switch to fan-only mode for gentle air circulation whatever the weather.

Electric Innovation

Onyx Orbit Electric

Gazco eStudio 165R with log-effect

Onyx's electric fire collection also includes standout designs like the Fusion and Orbit. The Fusion 150RW combines luxury aesthetics with cutting-edge Authentic Flame Technology, offering a crystal-clear display of lifelike flame visuals and a range of customisable settings to suit any mood. Meanwhile, the ceiling-hung Orbit creates a striking suspended centrepiece with panoramic flame views and realistic oak log effects – rotatable up to 340° for a captivating experience from almost any angle.

The Stovax Heating Group's prestigious electric fire collection also includes the Gazco eReflex and eStudio ranges, offering a variety of installation styles and fuel effects. From single-sided to panoramic three-sided designs, each fire features immersive Chromalight® LED technology, delivering atmospheric visuals and flexible installation options. Together, these fires represent the pinnacle of electric innovation, tailored for modern, design-led living.
