Welcome to Vision Fires. Discover our luxury range of contemporary electric appliances and suites, thoughtfully designed to showcase the captivating beauty of fire. Our fires meticulously replicate the natural look of a living flame with expertly crafted fuel beds and flame patterns.

For over 70 years, Vision Fires has been supplying high-quality fires, stoves, fireplaces, solid fuel spares, flue systems, and associated products to the heating industry. During this period, the company has become renowned for superior quality, craftsmanship, and innovative products. We pride ourselves on maintaining the values of a family-run organization, with sustainable and steady organic growth, backed by excellent customer service, unsurpassed quality, and a commitment to ensuring our customers' needs are paramount.

We are dedicated to quality, design, and craftsmanship. Our electric fires and suites are not only functional but also stunningly elegant. With a variety of options available, you can choose the perfect fire to suit your home's style. Additionally, we offer a range of carefully selected frames and fireplaces to enhance the design of these exquisite fires, ensuring the visual element of the fire remains the focal point.

Horizon Stove with Log Store

Mirano Suite:

Transform your living room into a captivating haven with the extraordinary Mirano Suite. Crafted from high-quality white veneer, this suite comes complete with an appliance, hearth, and slip set, making it the ideal choice for larger rooms or for those looking to create maximum visual impact. Guaranteed to give your home that touch of style and luxury, this suite exudes timeless elegance and radiates a mesmerising allure that will leave you and your guests in awe.

Material

The white veneer used in the Mirano Suite's construction not only adds to its visual allure but also guarantees durability and longevity. Enhance your living space with the Mirano Suite Fire Surround, a captivating statement piece that perfectly combines designer aesthetics with traditional charm. Elevate the environment of your home and create a warm and inviting atmosphere that will delight you and your loved ones.

Coppice Real Log Set

Enhance your Mirano Suite with the Coppice Real Log Set, the definitive upgrade for your appliance. Offering ultimate realism, this hand-crafted piece uses specially selected, natural logs to create an authentic latticed fuel bed, complete with forest floor embers. Each Coppice Real Log Set is unique and produced in the UK using locally sourced materials, expertly bonded together to form a single, easy-to-install product that adds the perfect finishing touch to your fire. While we aim to reproduce the same layout for each set, natural variances in the products used may result in subtle differences in finer details.

Technology

Using cutting-edge technology and innovation to provide instant heat, realistic flames, and adaptive ambient lighting to your living space. This suite is an ideal choice for larger rooms or for those looking to create the maximum visual impact. With its exceptional design, the Mirano Suite effortlessly blends contemporary aesthetics with traditional charm. Its sleek lines and refined craftsmanship make it a true masterpiece that complements any interior decor, whether you lean towards modern or classic styles.

Horizon Stove:
Elevate Your Home Heating Experience.

Experience the pinnacle of electric stoves with the Horizon. Combining cutting-edge technology and innovation, the Horizon provides instant heat, realistic flames, and adaptive ambience to transform your living space. Designed for ultimate functionality and smart control, you can adjust the speed, colour, and brightness of the mesmerizing flames, enjoy the enchanting crackling sounds of burning logs, or enhance your space with ambient lighting. This freestanding electric stove offers unparalleled installation flexibility, requiring only access to a power point. The Horizon effortlessly blends authenticity and convenience, making it the most sophisticated electric stove on the market.

Horizon Electric Stove Log Store

Complete the look of your Horizon Electric Stove with the elegantly designed Horizon Log Store. Crafted to flawlessly complement the sleek lines and classic style of the Horizon range, this log store not only adds height and presence to your stove but enhances the cosy, authentic fireplace aesthetic. It provides the traditional charm of a wood-burning stove, creating a stylish focal point for any room. Its sturdy build offers a practical and decorative solution, giving you space to store logs, fire accessories, or simply create an inviting display. Whether you're looking to elevate the visual impact of your electric stove or introduce a touch of rustic charm to your living space, the Horizon Log Store is the ideal finishing touch.

Coppice Real Log Set

Enhance your Horizon Stove with the Coppice Real Log Set, the definitive upgrade for your appliance. Offering ultimate realism, this hand-crafted piece uses specially selected, natural logs to create an authentic latticed fuel bed, complete with forest floor embers. Each Coppice Real Log Set is unique and produced in the UK using locally sourced materials, expertly bonded together to form a single, easy-to-install product that adds the perfect finishing touch to your fire. While we aim to reproduce the same layout for each set, natural variances in the products used may result in subtle differences in finer details.

Horizon Electric Stove Decorative Pipe

Enhance the traditional charm of your Horizon Electric Stove with the beautifully crafted Decorative Pipe. Designed to perfectly complement the stove's timeless aesthetic, this pipe adds the look of a real wood-burning setup without the need for a chimney or flue. It's the ideal finishing touch for those wanting to capture the authentic appeal of a classic stove in any room. Crafted for easy installation, the Horizon Decorative Pipe completes the stove's visual impact by creating the illusion of a functioning flue. Whether you're placing the stove in a living room, study, or conservatory, this accessory transforms your space with a touch of rustic elegance. The Horizon Decorative Pipe is the perfect addition for anyone looking to elevate the authentic look of their electric stove, providing timeless appeal.

Bassano Suite:

Elevate your living room into a captivating retreat with the extraordinary Bassano Suite. Crafted from high-quality white veneer, this suite includes the versatile Sandon appliance, hearth, and back panel, making it the perfect choice for larger rooms or for those looking to create maximum visual impact. Guaranteed to give your home a touch of style and luxury, this suite exudes timeless elegance and radiates a mesmerising allure that will leave you and your guests in awe.

Featuring the Sandon appliance which provides instant heat, realistic flames, and adaptive ambient lighting to your living space. The appliance comes with four interchangeable fuel beds; logs, coals, pebbles, and crystals allowing you to tailor the look to suit your tastes. Its exceptional design enables a harmonious blending of contemporary aesthetics with traditional charm, ensuring it complements any interior decor, whether you prefer modern or classic styles.

Material

The white veneer used in the Bassano Suite's construction adds to its visual allure while guaranteeing durability and longevity. The suite is designed to create a warm and inviting atmosphere, enhanced by the Sandon's innovative multi-colour flame technology and impressive heat output of up to 2kW.

Fuel Bed

Choose from logs, coals, pebbles, or crystals, each included as standard, to match your mood and style.

For a sleek, modern aesthetic, pair the crystal or pebble fuel bed with the mesmerising blue or green flame settings. Seeking a cosy winter vibe? Let the glowing red flames dance above the log or coal fuel bed, creating a warm and inviting atmosphere.

With the Sandon's multi-colour flame technology and infrared remote control, you can effortlessly adjust your fireplace's look and feel, bringing year-round ambience to any room in your home.

Key Features

Designed in the UK and fully ERP compliant, this electric fire is not only stylish but also environmentally conscious. The user-friendly infrared remote control with an LCD display allows you to effortlessly manage all settings, while the fully programmable timer provides automatic time and temperature control over a 7-day period.

Key Features:
- Infrared remote control with LCD display: Easy-to-use interface for simple operation.
- Four different fuel beds: Logs, coals, pebbles, and crystals to match your preferred aesthetic.
- RGB colour-changing flame effect and fuel bed: Create the perfect ambience.
- Thermostatic control: Maintain your desired temperature with ease.
- 7-day programmable timer: Set your fire to suit your schedule.

Sandon:

Introducing the Vision E-Line VEL40 Sandon Inset Electric Fires, the epitome of luxury and innovation in home heating. Featuring the latest multi-colour flame technology, this versatile appliance boasts an impressive heat output of up to 2kW, ensuring your home remains cosy and warm.

The VEL40 Sandon comes with a variety of contemporary and traditional trims to perfectly complement your décor. The four interchangeable fuel beds; logs, coals, pebbles, and crystals offer you the freedom to customise your fire's appearance to suit your changing tastes.
